IMPACT INVESTING
SOUTH AFRICA

OVERVIEW

The inaugural Africa Impact Summit is a hybrid event, which will take place on 13 and 14 July at the CTICC in Cape Town, South Africa, and serve as a platform for dialogue between leaders and experts from various sectors - policy, early-stage businesses and enterprises, fund managers, institutional investors, development finance institutions, international organizations - influencing impact investing across the continent. This event will convene delegates, from across Africa and around the world, showcase pipeline opportunities and market building efforts, while also reflecting on the challenges the continent faces. The Summit aims to be the leading forum for impact investing thought leadership and dealmaking in Africa.

PROGRAMME

The Africa Impact Summit programme has been crafted to cover themes and topics which are defining the continent's impact investing landscape and will provide unique on-the-ground insights from national and regional perspectives.

WHY ATTEND THE AFRICA IMPACT SUMMIT?

The Summit will provide a platform to make connections, discover opportunities and share insights to drive a new form of investment that works for Africa. Through 40+ speakers, participants will learn about the sectors that are driving development and impact in Africa, including agriculture, climate change, education, energy, financial services, healthcare, infrastructure, technology, and water. Moreover, individuals and organisations will understand the key actions that are urgently required to accelerate sustainable development on the continent.

THE TRACKS FEATURED AT THE SUMMIT INCLUDE:
